115 N Stewart Ave, Unit 3
Kissimmee, FL 34741 

BUSINESS SUMMARY

Qwalifize provides connected-worker solutions, RFID asset management with embedded tagging and thread technology, AI-enhanced CCTV capabilities, and unified dashboards for full traceability and data-driven decision-making. Our technologies deliver real-time visibility across Health & Safety, Risk & Compliance, Operational Performance, and Environmental & Sustainability management.

Our enterprise platform supports customized access control, multi-location monitoring, time stamping, auditing, workflow automation, and safety-status tracking. We integrate seamlessly with existing GPS and equipment systems. In addition, our predictive analytics capabilities identify root causes, anticipate equipment failures, and optimize maintenance schedules and operational workflows.

BUSINESS INFO

- **POC** - Lizbeth Walker
- **FEIN** - 83-1837212
- **DUNS** - 116607878
- **CAGE** - 86RG6
- **SAM UEI** - C43ZSRERNQA7

NAICS CODES

- **518210** - Data Processing, Hosting, and Related Services
- **541330** - Engineering Services
Applies when solutions require system engineering, hardware integration, and technical design
- **541519** - Other Computer Related
- **541990** - Professional, Scientific, and Technical Services

PRODUCT & SERVICES CODES (PSC)

- **R425** - Support - Professional: Engineering/ Technical
- **D302** - IT and Telecom: Systems Development
- **D318** - IT and Telecom: Hardware/Software Services
- **C519** - Engineering Technical Assistance: Covers system engineering related to RFID, connected worker hardware, and embedded tech
- **R415** - Technical Assistance: Covers onsite/remote technical support and system optimization

CORE CAPABILITIES

- **Connected Worker** providing real-time visibility, enhanced safety, threat reduction, and workforce accountability.
- **RFID and embedded thread technology** seamlessly integrated into wearables and assets for undetectable tracking, automated identification, and compliance.
- **Asset Performance Management** with predictive analytics and RPA to optimize reliability, maintenance, and financial decision-making.
- **Customizable dashboards and CMMS** for operational oversight, preventive maintenance, and real-time data-driven workflow management.
- **Integrated asset governance and compliance tools** covering contracts, warranties, leases, and automated traceability to reduce risk and ensure regulatory alignment.
